**Subject:** RE: Research question for Sheriff

Never came across, warned or arrested anyone for putting out water for illegals.  
Did take a report of vandalism when I worked Green Valley of two blue water barrel that were on the Pecan tree farm, which owner of Pecan farms had given the group "No more deaths" permission to put on his farm near a route taken by illegals.

Hi Jim!  
We are wondering if you have ever run across anyone in Beat 3 / Arivaca area...etc. that was putting out water resources (barrels, jugs, etc) for UDA's crossing through the desert. If so, did you charge them or verbally warn them....  
Thank you for any info.  
Have a super day!!
